

Galvanizer's Removable Paint Marker

For Fabricators & Galvanizers

**RIGHT
FOR
THE
JOB.™**

Before

After

The Markal Galvanizer's Removable Paint Marker is designed for fabricators for making durable marks on steel during fabrication. The marks are designed to be removed completely during the pickling stage of the galvanizing process. This effortless mark removal during the pickling stage eliminates the need for any additional touchup work and translates into labor and cost savings.

Features:

- Durable paint marks during fabrication. Marks are removed completely during the pickling process.
- Durable acrylic nib marks on smooth, rough and rusty metal surfaces
- More marks per marker – more than 2x longer write-out vs leading competitor
- Fast drying and Xylene Free
- Weather resistant paint formula
- Medium bullet tip nib makes precise marks

Surfaces:

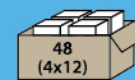

- Metals

Industry:

- Metal fabrication
- Galvanizing
