

Markal® ULTRA SCAN

THE ULTIMATE FLUORESCENT LUMBER GRADING MARKER

UltraScan, outperforms any other
lumber grading product on the market.

*ProGrade Holder
Sold Separately

Here's why:

- Highest fluorescent response for brighter marks and better character recognition
- One temperature formula
- Excellent writing qualities on all surfaces including green lumber with fungicide
- Extra long writing life for lower marker usage
- More color separation and usable colors for all grade mark readers

LOWER YOUR COST OF LUMBER GRADING

**UltraScan is proven at over 100 mills
around the world to save money
and improve grading performance**

- Reduces rejects by up to 90%
- Better color separation, more fluorescence and more readable colors
- Eliminates marking problems due to temperature, moisture, ice or board surfaces
- Use fewer crayons, especially with hardwood or other rough surface lumber
